- (2) It is divided into 43,558,850 no-par shares.
- (3) The Executive Board is authorised in the period up to the end of 10 May 2026, with the consent of the Supervisory Board, to increase the share capital of the Company on one or more occasions by issuing new registered no-par shares, but by no more than an aggregate of EUR 22,302,080.00 (2021 Authorized Capital) for cash and/or in-kind contributions. The new shares have a share in the profit from the beginning of the fiscal year of their issue. To the extent legally permissible, the Executive Board may, with the consent of the Supervisory Board and in derogation hereof and of Section 60 (2) of the German Stock Corporation Act, specify that the new shares will have a share in the profit from the beginning of an already ended fiscal year, for which at the time of their issue, no resolution of the Annual General Meeting has been adopted regarding the appropriation of the unappropriated surplus.

Shareholders are generally entitled to a pre-emptive right. The shares may also be taken over by one or more credit institutions or companies within the meaning of Section 186 (5) sentence 1 of the German Stock Corporation Act, with such institutions or companies being specified by the Executive Board and being obligated to offer the shares to the shareholders for subscription.

However, with the consent of the Supervisory Board, the Executive Board is authorised to exclude the pre-emptive rights of the shareholders as follows:

- (i) In order to exclude fractional amounts from the pre-emptive right;
- (ii) If necessary, to grant to the holders or creditors of option and/or conversion rights or corresponding option and/or conversion obligations from warrant and/or convertible bonds and/or profit-participation rights, which have been or will be issued by the Company or its Group companies within the meaning of Section 18 of the German Stock Corporation Act, a right of exchange or a pre-emptive right on new shares to which they may be entitled after exercising their option or conversion right or after fulfilling any option or conversion obligation;
- (iii) When there is a capital increase in exchange for cash contributions if the proportional amount of share capital ascribed to the new shares does not exceed 10% of the share capital and the issue price does not significantly fall below the stock exchange price within the meaning of Section 203 (1) and (2) and Section 186 (3) sentence 4 of the German Stock Corporation Act; the lowest existing share capital of the Company at the time the Annual General Meeting adopts a resolution on this authorisation, at the time this authorisation takes effect or at the time a resolution is adopted on the exercise of this authorisation is decisive here;

- (iv) In order to use the new shares, with the consent of the Supervisory Board, for the benefit of persons who are or were employed by the Company or one of its Group companies within the meaning of Section 18 of the German Stock Corporation Act, as well as for the benefit of members of the executive bodies of corresponding Group companies, whereby the working, other employment or executive body relationship must exist in any case at the time of the offer or commitment. The further details of any commitments and transfers, including any direct consideration, any eligibility requirements and forfeiture or accommodation regulations, particularly for special cases such as retirement, disability or death, are determined by the Executive Board;
- (v) Provided that the new shares are issued in exchange for in-kind contributions, to offer in particular the new shares to third parties as (partial) consideration for the indirect or direct acquisition of companies, parts of companies or shareholdings in companies or in the event of business combinations or the acquisition of other assets, including rights and receivables.

The proportional amount of the share capital, ascribed to the shares issued in accordance with this authorisation to the exclusion of pre-emptive rights in exchange for cash and in-kind contributions, may not exceed 10% of the Company's share capital; the lowest existing share capital of the Company at the time the Annual General Meeting adopts a resolution on this authorisation, at the time this authorisation takes effect or at the time a resolution is adopted on the exercise of this authorisation is decisive. The proportional amount of share capital ascribed to the following must be counted towards the aforementioned limit:

- (i) Shares that are issued or can be issued based on bonds with an option or conversion right or an option or conversion obligation or a right to delivery of shares of the Company provided that the bonds have been issued during the term of this authorisation to the exclusion of pre-emptive rights in analogous application of Section 186 (3) sentence 4 of the German Stock Corporation Act;
- (ii) Treasury shares that are used or sold during the term of this authorisation based on an authorisation to use treasury shares in accordance with Section 71 (1) no. 8 of the German Stock Corporation Act to the exclusion of pre-emptive rights after a repurchase.

In addition, the proportional amount of share capital of the shares issued from 2021 Authorised Capital for the purposes of an employee share programme may not exceed 5% of the share capital; the lower of the share capital at the time this authorisation takes effect or the share capital at the time a resolution is adopted regarding the issuance of the shares is decisive. The proportional amount of the share capital ascribed to treasury shares used during the term of this authorisation based on a corresponding authorisation to use treasury shares in accordance with Section 71 (1) no. 8 of the German Stock Corporation Act for employee share programmes or as part of Executive Board compensation must be counted towards the aforementioned amount of 5%.

The Executive Board is authorised, with the consent of the Supervisory Board, to determine the further content of share rights and the conditions of share issuance.

The Supervisory Board is authorised to amend the wording of the Articles of Association after full or partial implementation of the share capital increase through the exercise of the 2021 Authorised Capital and after expiry of the authorisation period.

- (4) The share capital of the Company shall be contingently increased by up to EUR 22,302,080.00 by issuing up to 8,711,750 new registered no-par shares (“2021 Contingent Capital”). The contingent capital increase will only be carried out insofar the holders or creditors of conversion or option rights, or those obligated to convert from issued warrant bonds or convertible bonds, profit-participation rights or income bonds (or combinations of these instruments) that are issued or guaranteed by the Company or one of its Group companies within the meaning of Section 18 of the German Stock Corporation Act, on the basis of the authorisation of the Executive Board up to 10 May 2026 through the resolution of the Annual General Meeting of 11 May 2021, make use of their conversion or option rights, or insofar the holders or creditors of issued bonds with a conversion obligation fulfil their conversion obligation, or insofar the Company exercises an option to grant shares of the Company in whole or in part instead of paying the monetary amount due, unless a cash settlement is granted in each case or treasury shares are used for this purpose.

The new shares will be issued at the option or conversion price to be determined in each case in accordance with the aforementioned authorisation resolution. The new shares to be issued will have a share in the profit from the beginning of the fiscal year in which they originated through the exercise of conversion or option rights or in fulfilment of conversion obligations. To the extent permitted by law, the Executive Board may, with the consent of the Supervisory Board, also determine the profit sharing of new shares for an already ended fiscal year in derogation hereof and in derogation of Section 60 (2) of the German Stock Corporation Act. The Executive Board is authorised to determine the further details of the implementation of the contingent capital increase with the consent of the Supervisory Board.
